## Why should you come?

As a professional art educator you provide students with critical 21st-century skills that are essential to student achievement and success. Staying on top of emerging research and practices within the field is more important than ever.

\*Timely and proven practices for helping students develop creativity and innovation  
\*Learning strategies and tools for developing "imagination" skills.

\*Understanding of the latest scientific research on how the arts inform the highest level of scientific creativity.

\*Creative thinking strategies from the world of neuroscience  
\*Insight into the creative processes of contemporary artists.  
\*Valuable resources, curriculum, and program ideas that will help you and your school meet the future collaboratively.

\*Time spent with others who do what you do, teach what you teach and think how you think.

**You will be rejuvenated and excited to try what you learn with your students.**
